6.4 RESIDUAL ANALYSIS HEADLINES

We have undertaken a residual appraisal in order to analyse the existing site value of the whole Property, on the basis of the consented scheme detailed within this report. The residual valuation is based on our assessment of revenue (the Gross Development Value, or 'GDV'), thereafter deducting development costs including finance and allowance for profit. A copy is attached at Appendix 7.

6.2 GROSS DEVELOPMENT VALUE – RESIDENTIAL FLATS

1.8 The Funder has advised that they are looking to provide a Loan Facility of £3,843,000.00 as shown in the above table.

1.9 The cost plan that the Borrower provided (Appendix II) has an expected development cost of £2,462,660 exl VAT, which includes Construction, Contingency, and Professional Fees, which mostly aligns with the Loan Facility. We have included the Funder Fees and purchase costs as per the Facility Letter. We note that a Community Infrastructure Levy and a S.106 agreement will encompass monetary contributions, which are yet to be finalised.

1.10 The Borrower has provided a Gross Internal Area (GIA) for the development of 1,948.10 m² (16,665.90 ft²). We have cross-checked this measure and found a difference of 390.42 m², as we measure 1,939 m² (16,871 ft²). We believe that the communal areas have not been included and there is a discrepancy with the internal measure, therefore
